	A discussion covered the following points: 1.The Planning Committee feel that the site will be over-developed. We still believe 8 houses is a better number of houses for the site than 10. 2. The proportions of the windows are ill conceived. 3. Aesthetically the houses will not be in keeping with the housing style in Castle Cary 4. The houses are a poor design that will be here for the next 30 years 5. The Committee is not in favour of the render; it often doesn't last. 6. The lack of photovoltaics is disappointing, particularly as the development is facing a good direction 7. The lack of lintels on the lower windows looks odd

	To raise the existing height of the central chimney used for live fires from .900m to 1.8m in order to comply with Part J of the Building regulations using matching materials

	Mr Andrew Hopkins Land at Camp Road Dimmer Lane Dimmer Castle Cary	
	Erect security building and staff parking area. Erect perimeter security fencing all in association with the storage of motor vehicles. Change of use of the land from B2-B8 use.	
	Discussion: PP readvised the Committee of the reasons it rejected the proposal last year (3.4.17). Tonight's discussion covered: the number of vehicle movements by Car Transporters is unknown. The key issue is the very narrow B3153 road & low bridge. The site is B2 at moment. A discussion took place about whether B8 would be better for town as it is the lowest impact industrial usage class.	
	DECISION PP will draft a response to the Appeal Inspector including the Waste Transfer Station going ahead near by at Dimmer & the road & transport issues. She will circulate a draft for comments as this has to be in by early March.
